From Evansville East Side

Come **North on I-69** about 12 miles to **EXIT 33**. Take this exit! (An exit sign “**Princeton-Oakland City Huntingburg**” appears at 2 miles prior, another at 1 mile prior, and then at the exit itself) After exiting, turn **left** (West) on **State Road 64** in the direction of Princeton. You will cross over the interstate, and drive West up a long hill. Slow down at the top of the hill for a **left** turn on **County Road 850 E**. This is the first County Road intersection West of the Interstate. “Peabody Energy Francisco Mine” sign is on the right at this intersection. Turn **left** and drive South.

Directions once you turn South on 850 E from State Road 64

After about **2 miles**, you will come over 2 rather steep hills -- both “Blind Hills” with no center line – slow down and keep well to the right coming over these hills.

After driving over the *2nd* steep hill, there are 4 houses **on the left hand side**. The fourth is our house. A privacy fence is evident. The house is grey with brown gutters, brick front, cream-colored framing windows. Notice number attached to green mailbox post on your right. Our number *is 4400* . *Turn left* into gravel driveway at the mailbox.

Follow gravel drive through the double gates, across pond dam, and up the hill on other side to the Meeting House near the waterfall. Turn at a right angle and park on gravel with front of car facing the woods on the right. **WELCOME!**

From Evansville North and West Side

Come **North on US 41 to I-64**. Drive **East on I-64** to the **I-69 North** exit. Once on **I-69 North**, follow the directions above from Evansville East Side.
